Who we have previously funded

It may be of some help if we give you an idea of the groups that we have previously made donations to. Grants for the deprived

We also make a small number of grants to students from deprived backgrounds. Who are personally known or have had some connections with Brighton Unemployed Workers Centre. For example one of the groups we have made a grant to is Reprieve, an anti-death penalty organisation that is often the last resort for those on death row. We are particularly interested in groups supporting asylum seekers and anti-racist and anti-fascist organisations.
